

Administrators' Retreat

MIANGO REST HOME | 21-23
AUGUST

Learn, Connect, Grow

Rooted...

Christian Education is a very important mission. It is very dear to the heart of God and absolutely crucial to the advancement of the Gospel, to the Great Commission, to discipleship. Our children and young people are inundated everyday through technology, the media, social and peer pressure, and many other influences with content that is diametrically opposed to the Biblical worldview and the very fact that the only real context for living in this world is a vibrant relationship with the One Who created it and knows how it works. As Christian Educators, we have a strategic role to play in helping our young people develop the right perspective of life. That is what discipleship is about.

Yet we face so many challenges. The resources seem to be much smaller than the dreams God has given us. The partners seem to be few and far between both in terms of staff to help carry out the vision, parents who have a conviction about Christian Education, and the list could go on. Still, we cannot let these hold us back; not the lack of financial resources, not challenges with supportive parents, not challenges with competent staff, not challenges with any other resource. Victory has already been given to us (2 Cor. 2:14)

That is why we are inviting you to join us from August 21-23, 2023 for our very first Administrators' Retreat. This is billed to be a time of refreshing, refocusing, and planning for our schools to begin that push for the heights to which God would like to take us.

We hope every administrator of each school will carve out time to join us for this special meeting. Let us consider together how to strengthen our schools, how to overcome our challenges, how to support each other, and how to position ourselves for the victory God has already given us.

God's design is for us to be a reference point for Education in Nigeria (Deut. 28:13). Let's give Him the opportunity to root and build us up in Him (Col. 3:7)

... and Built Up

Retreat Theme

One important goal for this retreat will be to work on our foundations. Schools using the A.C.E. Program should be of a certain character and quality. They should be positioned to effectively administer the program and disciple the young people in their care. They should be equipped adequately to meet the needs of their students. They should be structured for longevity and impact on their communities. They should stand out. This is the focus of this retreat. We want to work together to bring our schools to the place where we stand out for our quality and especially for the graduates that we produce. This year's theme is "Rooted and Built Up (Col. 3:7).
